IIT Bombay

1st September 2017

Dear Heads of UMA Institutions,

Greetings from CTARA, IIT-B.

I am happy to announce that your institution has been selected to participate in the UMA-UNICEF RWS Assessment Workshop to be held at Rajarambapu Institute of Technology, Rajaramnagar, Islampur, Sangli District, Maharashtra- 415414 from 24th to 26th September 2017. A detailed schedule and logistics will be sent in a few days.

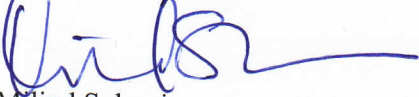

Please find attached the list of colleges and paired districts. As a part of the training program, faculty members and students of your college will be required to assess two schemes from their paired district and produce reports. We are in touch with the Water Supply and Sanitation Department (WSSD) of Government of Maharashtra and the CEO, Zilla Parishads will be requested to make available the DPRs, the scheme file and other relevant documents, tenders and data, for the schemes. They will also be requested to allow access to facilities, staff and beneficiaries so that the colleges may perform the required study.

We hope to complete the process of scheme selection and allocation by the end of next week. Colleges should receive official communication from the WSSD soon. **Please contact the CEO, Zilla Parishad sometime around 8th September 2017.**

As mentioned before, this is a long-term project and we are hoping you will establish a long-lasting professional engagement with the state and district administrations. The expected outcome of this project is the generation of quality reports by UMA colleges on their insights, experiences and best practices, which can then be shared with the district administrations and Government of Maharashtra. These reports will also be compiled to prepare a training manual and compendium of various schemes audited by colleges across the state, which may be used as a text-book or resource by engineering colleges across the country.

Please let us know if you have any queries or suggestions.

Thanks and regards,

Milind Sohoni

Professor, CSE and CTARA

Chairperson, UMA Advisory Committee
